

Members Kit repair by 3 Blades Club Armourer

The role of the Club Armourer is to look after the clubs electric kit, members kit is their own responsibility but I am very happy to help where I can. If you do want me to do anything, I will try my best to make a good job of it, however, I am a novice and a volunteer, so I cannot guarantee my work. I do not charge anything for my time but there is a cost to cover club expenditure.

As a guide:

- General maintenance (all weapons, including barrel cleans and re-tapes etc)
 - £2
- New wire using existing barrel parts
 - £5
- New wire with new barrel parts
 - £12.50

I can also give you advice if you want to have a go at repairing your own kit. Guidance on repair and maintenance can also be found on the internet on Leon Paul and YouTube.

In terms of basic maintenance of your own kit, as a general rule, if anything is loose or dirty, expect a higher risk of problems occurring.

Regards
Angus Bramwell
